## WORK EXPERIENCE

### UMANG Software

Panaji, Goa

#### Software Developer

Jul 2023 - Present

- Worked with design teams and Senior Software Engineers to develop custom software.
- Learned best practices, shadowed team members, handled technical issues, collaborated on issue resolution, and wrote clean code for multiple projects.
- Collaborated with clients to identify software application issues, resulting in a 20% increase in client satisfaction ratings.
- Implemented efficient bug-fixing processes that reduced average resolution time by 30%, leading to a decrease in client downtime and an increase in overall productivity.
- Maintained and updated software applications for over 10 clients, ensuring optimal performance and functionality at all times.
- Collaborated with cross-functional teams to design and implement innovative features for new software applications, contributing to a 10% increase in user engagement metrics.

#### Software Developer Intern

Jun 2023 - Jun 2023

- Supported development, QA, and user experience teams to create new products.
- Learned software engineering best practices, developed projects using Pascal, resolved deployment issues, wrote clean code, and created databases using SQL server.
- Developed and executed comprehensive project plans for internal software development projects, resulting in a 20% increase in project efficiency.
- Enhanced understanding of the software development life cycle through hands-on experience with agile methodologies, leading to a 15% reduction in time-to-market for new products.

## EDUCATION

### Government College of Arts Science and Commerce

Sanquelim, Goa

#### Bachelor of Science - Computer Science

Graduation Date: Apr 2023

## PROJECT EXPERIENCE

### Personal Projects

#### Developer

- Developed a responsive real estate website using React, featuring property listings, interactive search, and a contact form to enhance user engagement and streamline property inquiries.
- Completed 'Treaza,' a college project developed with the MERN Stack, integrating dynamic front-end design and robust back-end functionality to deliver a seamless user experience.
- Developed 'WeChat,' an online chat platform built with the MERN Stack, featuring real-time messaging and user authentication to enhance communication efficiency.
- Developed a chat app in Android Studio with Firebase integration, gaining hands-on experience with real-time databases and enhancing proficiency in mobile app development..
- Built a note-taking app in Android Studio using Firebase Authentication, enhancing understanding of secure user authentication in mobile applications
- Developed a BMI calculator and a task manager app in Flutter, utilizing Firebase for secure history storage, improving skills in cross-platform development and data persistence

## SKILLS & INTERESTS

**Skills:** Java, React JS, Node JS, Delphi, C/C++, SQL/MongoDB, Flutter

**Languages:** English, Marathi, Konkani,Hindi

## WORKSHOPS

---

- Amazon web service, Bangalore.
- CANVA workshop, Bangalore.
- Noded JS and React JS attended two days at Margao- Goa.
